Daniel was an awesome TF! He really knows what he's doing when it comes to coding in stata and he facilitated discussion in section really well. His comments in the final paper writing process were also really constructive.

Superb. Extremely nice and approachable, and clearly had a great understanding of all the concepts we were learning in lecture and could teach them effectively.

Daniel is a super nice, helpful TF who did his best to keep us awake during our 9am section. Held great office hours and responded to emails quickly.

Daniel is a great TF. He puts in a lot of effort -- meeting with students one-on-one, quickly e-mailing responses without giving answers away -- and does a great job at it. He made me feel confident in pursuing a final project that was different from those I have done before, and helped me learn stata which was a new skill. Since it is Daniel's first time teaching, I want to provide some feedback on section. Overall, section was very low stress and important for preparing us for the problem sets. The most interesting sections were those in which we talked about the articles he sent out for the week or the articles posted on the site. My only constructive feedback would be trying to incorporate more students into the discussion. I often felt like the same few people were answering questions, and it would have been great to get more kids involved. This might not have been a product of Daniel's style but rather a result of individuals in the class and varying levels of interest/comfort in public speaking, but still something to consider.

Daniel is GREAT! He is very accessible, made sections fun, and was really helpful in terms of explaining how STATA codes work. I really enjoyed his teaching style.

Daniel is extremely helpful with both material and coding.

- [Evaluate the course overall.: **4 (very good)**]
- [Evaluate your Section Leader overall.: **4 (very good)**]

Daniel is great at tailoring the experience to what we wanted to get out of it and focusing on where we needed help.

- [Evaluate the course overall.: **3 (good)**]
- [Evaluate your Section Leader overall.: **5 (excellent)**]

Daniel was a great TF, but it didn't seem like there was often enough material to fill a thoughtful section. A couple of times we did fairly pointless activities for college students (seemed more middle school level). But Daniel was really helpful on problem sets and outside of class and showed genuine care for students and knowledge about material.

Easily among the best TFs I had at the College; he is excellent at explaining the content from lecture and relating it to psets

Great person, good section leader helping us when we needed it, and understands stata

Great! Very engaging and fun. Also very helpful and understanding of our lack of Stata-expertise.

Daniel did a great job making sure everybody was excited to be in section, even when it was at 9 am. He always provided good feedback on assignments and was always there if you needed any additional help.
